✓ 5 Aspects with no issues [hide](#) ^

Website is optimized for mobile devices

Your website can be used easily by visitors on mobile.

Favicon is present

Your website uses a favorite icon. This ensures that your website makes a good impression as a bookmark and in browser tabs.

Touch icon is present

Your website uses a logo for smartphones and tablets. This ensures that your website makes a good impression as a bookmark on mobile devices.

Page title found

This page title will be easy for your website visitors to view in a browser tab and makes your page easier to find among stored bookmarks.

Ideal domain length

With 15 characters, your domain has the ideal length. Short, catchy domains are easier for visitors to remember.

Note

Expand your brand's online presence! Reserve other top level domains for your business:

! Action required

Create a page description

There is no description available for your website.

Create Sitemap

Use a sitemap to submit all pages of your website to search engines.

[Show solution](#)

! Action recommended

Enhance your page title

Your selected page title is not an optimal length at 10 characters. A page title that is too short is not descriptive enough to be effectively ranked in search results.

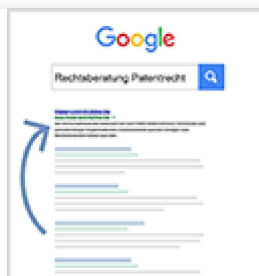

[Show solution](#)

Create more page content

Your homepage does not have a sufficient amount of content with 31 words. Provide more content to compel people to visit your website. Your website should have at least 500 words.

Be secure

✓ 3 Aspects with no issues [hide](#) ^

Your website already uses an SSL encryption.

Great! Your website already uses an SSL encryption. All of the incoming and outgoing content of your website is encrypted.

The Apache status is hidden

The status page of your web server is unavailable. This acts as protection against potential hackers.

Server version is not visible

The server version of your web server is not publicly visible. This helps to not expose your server's vulnerabilities to hackers.

Be fast

! Action required

Activate CDN

A Content Delivery Network (CDN) optimizes the delivery of the content of your website to your visitors. It is especially useful if you have visitors that view your website from a variety of geographic regions.

✓ 2 Aspects with no issues [hide](#) ^

GZ Compression is enabled

Compression is enabled. This reduces the size of your website and helps to
